Education

University of Toronto, BAsC in Mechanical Engineering

- **Coursework:** Modular Canoe Outfitting, Non-Disruptive Wake-Up Mechanism, Hopfield Network Demo.
- **Extracurricular Activities:** Member of Combat Robotics, Hatchery Member, Meraki.

Experience

Technical Services Coordinator, CRH – Toronto, ON

May 2025 – Aug 2025

- Conducted strength and quality tests on concrete and aggregate samples.
- Collaborated with R&D employees to share test results and determine ways to improve concrete.
- Recorded data and performed calculations when necessary.

Mechanical Engineer, UTRA Combat Robotics – Toronto, ON

Sep 2024 – Mar 2025

- Worked with fellow engineers to improve the durability and functionality of the robot.
- Conducted tests to determine the outcome of our changes, reiterated when necessary.

Web Developer, U+Education – Toronto, ON

Sep 2022 – Feb 2023

- Utilized HTML/CSS/JS/Flask to perform website maintenance and develop new features.
- Integrated datasets/spreadsheets with the company website.
- Provided feedback to leaders; proposed solutions to emerging issues.

Publications

4D Printing for Energy Storage Systems: A Transformative Manufacturing Paradigm

Sep 2025

Projects

Blueprint

www.producthunt.com/products/blueprint-9

- Developed an app that uses AI insights and social media data to perform a competitive analysis on an inputted business idea, and provides an actionable business plan.
- Tools Used: Python, Streamlit, OpenAI.

Modular Canoe Outfitting System

- Worked with a client to develop an engineering solution to enable rental canoe outfitting for whitewater canoeing.
- Tools Used: Solidworks, Ansys, 3D printing.

Skills | Certifications | Competitions | Achievements

- SolidWorks CSWA Certification
- Programming Skills: Python, HTML/CSS/JS/Flask, Streamlit.
- Life Saving Instructor, Lifesaving Society, Canada.
- Food Allergy Canada Mentor.
- Team Leader and Driver, Vespa First Robotics 2024.
- UofT x Nestle Hack Attack, placed 3rd out of 40+ teams.
